WORK EXPERIENCE

Linux Administrator Wipro Technologies

12/2022 - Present

Pune, India

Wipro Technologies is a global leader in IT services, consulting, and business solutions, known for leveraging technology to drive innovation and digital transformation for clients across industries.

JOB RESPONSIBILITY

- Administered and maintained **Red Hat Enterprise Linux (RHEL)** servers, ensuring optimal system performance and security.
- Configured and managed network services, including **DNS, DHCP, NFS, and Samba** to facilitate seamless server communication.
- Implemented system updates, patches, and security hardening to safeguard against vulnerabilities.
- Automated routine tasks using **Bash scripting, cron jobs, and Ansible** for improved operational efficiency.
- Managed user accounts, permissions, and groups using **LDAP**, ensuring access control and compliance with organizational policies.
- Collaborated with **clients to assess infrastructure needs**, providing tailored solutions and technical support.
- Maintained and optimized client-side systems, ensuring smooth operations and prompt issue resolution.
- Configured and troubleshooted **network interfaces, firewalls, and routing** to ensure reliable performance.
